LIFE SCIENCES

Aldehydes, Amines, Boronic Acids Bromides, Carboxes,
Deuterated **Building Blocks**, Fluorides,
Imidazoles, Indoles & Oxindoles, Pyridines,
PEG Linkers, and many more...

Diverse Fluorescent Products

Custom synthesis based on customer demand.

Rare & Hard to find Chemicals.

Specialized in Fluorescent Reagents & Probes

Fluorescent/Non-Fluorescent Lipids, Phospholipid Probes

Fluorescent/Non-Fluorescent Membrane /Membrane Potential Probes

Natural Products and Their Fluorescent/Non-Fluorescent Conjugates

Reactive Probes and Related Products

Fluorochemicals

Organic intermediates- Heterocycles, Halogenated compounds, Boronic acids,
Phenacyl Bromides.

Biochemicals- Antibiotics & Buffers, Proteomics, Molecular biology, Recombinar
Proteins, Antibodies, Enzymes & Growth factors

Spectroscopy- Deuterated solvents & NMR tubes, Silica Gel, Mass Spec standards

High purity inorganics Probes and Related Products
